DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 44 and 45 are rejected under 35 U.S.C. 102(e) as being anticipated by Krausman et al. Krausman discloses an apparatus comprising a breath receiver 23 in fluid communication with a subject and a breath analyzer and respiration diagnosis generator (external computer 17). The external computer 17 also receives input from non-breath related measuring units 11, where the units may include a pulse oximetry unit or an ECG recording unit. From the breath receiver signal, the computer 17 may determine and display airflow rate from the breath receiver signal. Additionally, the computer 17 identifies sleep disorder breathing events from all the input signals, and characterizes them as being central, obstructive, or mixed, and as apnea or hypnopeas (figs. 4-10).

Response to Arguments

Applicant's arguments with respect to claims 44 and 45 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3736

Allowable Subject Matter

Claims 26-43 and 46 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
